- **Volatile Acidity:** 0.45
- **Total Acidity:** 5
- **SO₂ Free / Total:** 25 / 95
- **pH:** 3.65

Winemaking

Grapes used for Maruxa come from our terraced vineyards in the village of Entoma, Valderrosal and Valdemioto vineyards. Clay and decomposed schist soils.

Manual harvest in 15 kgs cases. Cold maceration of the grapes in scale fridges and of the must 48 hours before alcoholic fermentation. Destemmed but not crushed in order to preserve the primary aromas.

Fermentation with autochthonous yeast.

Harvest description

The 2018 harvest took place during the second fortnight of September. A dry summer provided full grape maturity, and a fresh and aromatic harvest.

Yields were lower due to rains during the bloom.

It could be one of the best harvests of the last 10 years.

Tasting notes

Brilliant clean red cherry color.

Explosion of aromas on the nose, intense fresh red fruit flavors, mineral and earthy.

In the mouth the wine is broad and fresh with a good acidity.

Recommended service temperature 15°C.
